DELIGHTFUL HAIR WASH
You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist a package of canthox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the faintly perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After rinsing the hair dries quickly with a softness that makes it seem heavier than it is, and taken on a rich luster and a softness that makes arranging it a pleasure.—Adv.

Doctor Praises
Eczema Remedy
The cure of skin disease (eczema) and diseases of the scalp is known to be difficult. However there is one remedy that is entirely dependable in this distress and troublesome disease: that is D. D. D. prescription.

COCKRAN GIVES
HIS SOLUTION OF
LABOR PROBLEM
Tells Federal Employees
Putting Men First
Will Settle It.

Men are the most important factors in production, and when they are considered as such all of the present labor differences will be solved, and production, wages and dividends will be greatly increased. This was the solution of the labor problem and decrease in production given Friday in an address before more than 1,000 members of Federal Employees' Union, No. 2, in the auditorium of Central High School by Representative W. Bourke Cockran, of New York.

Warns Against Strikes.

Representative Cockran defended the right of the government employees to organize for bettering working conditions and for making efficient and economic operation suggestions, but informed them that if they ever intended to use the strike as a means to secure their wants he would applaud before them "only to urge the abandonment of the union."

He urged the members to use caution in choosing their spokesmen and representatives, and told them not to consider petty complaints. "Your representatives, who are dealing with the government and not a private employer, should use diplomacy instead of threats and demands."

"The world today is at the parting in the road. It is either going to a higher civilization or it is going down into the abyss to which other civilizations have gone. The whole decision lies with industry. Industry at present is unsettled owing to mistrust and misapprehension by employees and employers, with each feeling that the other is trying to grasp a larger portion of the profits of the industry. This condition must be supplanted by a feeling of trust on the part of both parties and the establishment of industrial peace, or civilization is doomed to perish."

For Industrial Union.

"The industrial union is the only thing which can bring the employer and employee together on a common basis, and, although the present unions have not gone very far, they are a step in the right direction. The strike should only be used as a last measure, for it usually reflects injury upon the employees who use it."

Burd W. Payne, president of the union, who presided, declared that "under no consideration would the union consider a strike against the government."

DISTRICT COUNCIL
FOR CATHOLIC MEN
Organization Will Be Completed at Convention
Next Tuesday.

Organization of the District Council of Catholic Men will be completed at a convention to be held Tuesday, according to plans outlined at a meeting of 211 delegates of the 25 Catholic parishes Friday at headquarters of the National Council of Catholic Men, 1514 Massachusetts avenue northwest.

Preliminary plans for the national convention to be held in Washington next October will also be formed at the Tuesday meeting. The council also plans to take an active part in the entertainment of Marshal Foch, of France, during his visit to the United States in the fall. The national convention will be held at the same time that the annual meeting of archbishops and bishops of the Catholic Church convenes here.

Senator Joseph Ransdell, Louisiana; Admiral W. S. Benson, of the United States Shipping Board; and the Rev. John J. Burke, general secretary of the National Catholic Welfare Council, presided at the meeting last night. The District convention will be held at the Catholic Community House, 601 E street northwest.

French Soldier Statue
A. W. O. L. in Brooklyn

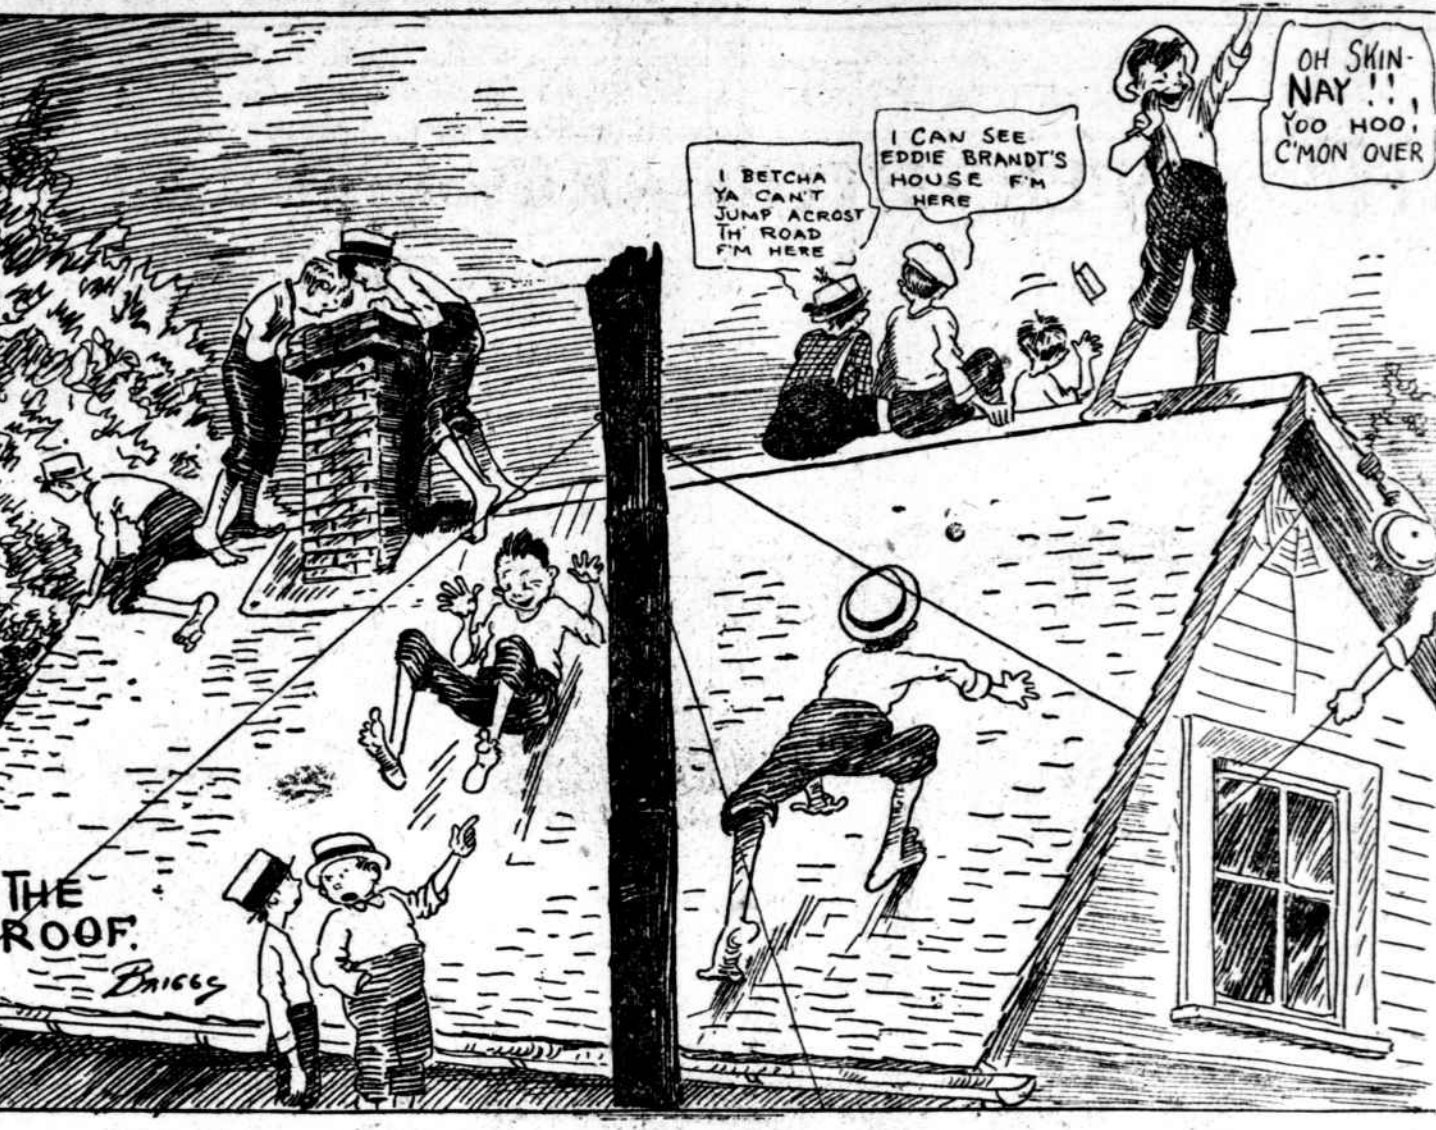

NEW YORK, June 24.—The police are looking for a statue of a French soldier A. W. O. L.

The statue, made of bronze and weighing 135 pounds disappeared from a warehouse in Brooklyn. It was brought here by the French high commission for exhibition purposes. It is valued at \$10,000.

STEALING CHARGED
TO COLORED MAIDS
Two Held by Police on Com-
plaint of their Em-
ployers.

Two colored girls, employed as maids in different homes and charged with stealing from their employers, were caught in the police net Friday.

Hattie Leona Howard, 16 years old, 1316 T street northwest, is charged with having obtained a position as maid at the home of Mrs. Robert W. Coleman, 725 Nineteenth street northwest, and with having stolen a number of valuable pieces of wearing apparel. She was arrested by Detective Sergts. Bradley and Keck after Mrs. Coleman notified one of her hat plumes in the girl's possession.

Charged with stealing jewelry valued at \$1,000 from 3600 Albermarle street, Cleveland Park, where she was employed, Viola Scott, 17 years old, 4716 Belt road northwest, was arrested by Detective Sergts. Darnell and Pratt. McCarthy loss on June 17.

NEW RULE EXTENDS
RETIREMENT SCOPE
Employees Changed to Unclas-
sified Positions Eligible
To Benefits.

Federal civil-service employees who have been changed to positions not classified will receive the benefits of the retirement act, according to a ruling of the Civil Service Commission. President Martin A. Morrison Friday addressed a letter to the National Federation of Federal Employees as follows:

"With reference to the case of Jacob H. Cole, whose designation was changed from watchman-freeman to laborer, Federal Building, Patterson, N. J., June 21, 1916, the commission desires to state that the status of such employees under the retirement act was taken up with the Treasury Department. The commission has been informed that the department has no objection to including employees in the custodian service originally appointed to classified positions through examinations held under the civil-service rules and who have subsequently been changed to and unclassified status within the scope of the retirement act May 22, 1920. Mr. Cole will be considered as coming within the provisions of the act."

WARREN NAMED
ENVOY TO JAPAN
President Harding has solved his biggest problem in the diplomatic list, the choice of Ambassador to Japan.

Charles Beecher Warren, of Detroit, was named for this post Friday and in announcing the President expressed gratification over Mr. Warren's acceptance.

Originally the President had in mind David Jayne Hill, former American Ambassador to Germany, but Mr. Hill could not accept because of business engagements. He then turned to Mr. Warren, who accepted the offer after considerable deliberation. Mr. Warren had previously planned to go to Europe and will sail on this trip today and return in time to go to Japan in August. Japan has notified the President of the acceptability of Mr. Warren.

ASSAULTS LENIENCY
FOR PROFITEERING
NEW YORK, June 25.—Before Lockwood committee adjourned for the summer Friday, Samuel Untermyer, chief counsel, placed before the committee the main features of the program outlined as a result of the committee's deliberations since last October in its investigation of the housing situation.

In discussing the plan to get rid of criminal combinations, Mr. Untermyer attacked the Department of Justice for its apparent twelfth-hour change of mind in respect to the prosecution of such combinations. He said he would not be a party to such "camouflage" as the institution of civil suits in place of criminal prosecutions.

Such action would be a "ghastly farce" against "these prosperous business blunders," he asserted.

HARVEST HANDS
GIVEN \$7.50 A DAY
TOPEKA, Kas., June 24.—A maximum wage of \$7.50 a day was offered for harvest hands in the north central Kansas wheat fields today. The situation was reported acute while the need for help in southern Kansas was reported alleviated considerably.

The wage scale originally agreed upon by farmers was \$3 a day.

Horoscope
For Today
What the Stars Indicate
SUNDAY, JUNE 26, 1921.
(Copyright, 1921, by the McClure Newspaper Syndicate.)

Jupiter and Uranus are in malefic aspect, according to astrologers, who read this as an unfortunate day.

Clergymen may discover lack of interest and indifference among persons in the congregation, for Uranus affects the mind unfavorably when exercising the minister power that marks the planet today.

Under this direction of the stars impatience of leadership and disposition to criticize will be apparent. The President and his cabinet may suffer from adverse newspaper comment, owing to a peculiar circumstance.

There is a sign giving warning that evil gossip concerning both men and women in high place will be very prevalent.

Disappointment for a distinguished jurist seems to be indicated by the adverse rule of Jupiter.

Unrest and discontent will be widespread before the autumn and here should be wise effort to keep the public mind confident and serene.

Nervous persons may suffer a great deal in the next month, which may be extraordinarily warm.

Cleanliness is again enjoined for cities, since there is danger of epidemics affecting the digestive organs.

Religious dissensions will multiply, but more serious than open disagreement will be secret propaganda meant to estrange members of different faiths.

The death of a famous statesman who has reached an advanced age seems to be foreshadowed.

Losses through misjudgment, unfortunate speculations and investments are supposed to be encouraged by the unfriendly sway of Jupiter.

Much humidity is foretold for the midsummer days, when there will be much suffering among the poor in cities.

Persons whose birthdate it is should guard against money losses in the coming year.

Children born on this day may be too fond of change to settle down to work, but these subjects of Cancer should be bright and clever.

Harding Neutral
REGARDING BONUS
McCumber Tells Senate Presi-
dent Is Not Against
Measure.

If the \$1,356,000,000 soldiers' bonus bill is passed by Congress it will have to go through without administration aid. In this respect it will be in a better position than it was during the last session when the Wilson administration actively opposed it.

President Harding has not committed himself either for or against the bonus bill. This was made plain to the Senate Friday by Senator McCumber, of North Dakota, after a conference with the President.

Senator McCumber informed the Senate that the President "has not expressed himself in any way in opposition to the adjusted compensation bill," the new name for the soldiers bonus measure.

"Does the Senator mean to have the Senate believe that the President expressly approved of the bill?" asked Senator King, of Utah.

Senator McCumber replied that he did not mean to convey such an impression. He stated that he merely wanted the Senate to understand that the President had no desire to interfere with the functions of Congress and would withhold his judgment until the bonus measure came before him in the regular channels of legislative procedure.

HOMEOPATHS FLAY
EXCESSIVE USE OF
KNIFE IN SURGERY
American Institute Holds
Final Session of
Convention.

With a session devoted principally to consideration of business routine the convention of the American Institute of Homeopaths was brought to a close Friday afternoon.

Dr. Thomas E. Reed, in a paper on appendicitis, declared that the knife was being used to an unnecessary extent in the treatment of the disease. He stated that he had successfully coped with several hundred cases of appendicitis without resort to surgery.

The various schools of medicine are approaching each other," Dr. C. E. Colwell, Aurora, Ill., declared at the convention. "The presence at a

banquet of homeopathic physicians of the president of the American Medical Association indicated the new spirit," he said. "In diagnosis, bacteriology, and other branches of medicine, we draw from the same sources as the dominant school of medicine."

The international Hahne mania Association, which is meeting in conjunction with the Homeopathic Institute, held a second session last night. Dr. Guy Beckley Stearns acting as chairman.

Among the papers presented were one on malarial fever by Dr. E. A. Roberts, in which the claim was made that quinine was not essential in the cure of malaria. Dr. Roberts admitted the efficacy of quinine in the treatment of the disease, but declared that there were other homeopathic remedies which could effect restoration from that disease.

Theater Collapse Due
To Digging Under Wall
JOHNSTOWN, Pa., June 25.—Investigations at Barnabro Friday revealed that the collapse of the Grand Theater there late yesterday, costing seven lives, resulted from excavations which undermined the building's walls. Four of the victims were children.
